

Press Kit

Biography, key figures and resources for journalists and media teams.

Short biography

Dr. Seynude Jean-Fortune Dagnon, MD, MPH, is Senior Program Officer — Malaria / Francophone Africa at the Gates Foundation. For over 17 years he has led malaria programs across West and Central Africa: campaign digitalization, seasonal chemoprevention, vector control and data systems. He directed USAID/PMI programs in Benin and was named FSN Employee of the Year 2020. A PhD candidate in health economics (University of Groningen), he regularly speaks to the media and at international conferences.

Who is Dr. Seynudé Jean-Fortuné Dagnon? ▾

Dr. Seynudé Jean-Fortuné Dagnon, MD, MPH, is Senior Program Officer — Malaria / Francophone Africa at the Gates Foundation. For over 17 years he has led malaria programs across West and Central Africa: campaign digitalization, seasonal chemoprevention, vector control and data systems. He directed USAID/PMI programs in Benin and was named FSN Employee of the Year 2020.

Is the site available in multiple languages? ▾

Yes. Every page exists in both French and English, with an instant switch at the top of the page. Publications, op-eds, case studies and news are fully translated into both languages.

How can I get the portrait photo and the press kit? ▾

The high-resolution portrait photo and the complete press kit (FR/EN biographies, key figures and contact) are freely downloadable on this page, along with PDF versions of the kit and the CV. The content is royalty-free for the press, with a credit line.

Is Dr. Dagnon available for interviews and conferences? ▾

Yes. He regularly speaks to the media and at international conferences on malaria and health systems in Francophone Africa. For an interview, a comment or an in-depth story, use the contact form with the "Press" subject.

Where can I find the full list of publications? ▼

All publications are listed on the Publications page, sorted by year, with BibTeX, RIS and APA citation export. Op-eds and case studies are published on their dedicated pages.

May I reuse articles and content from this site? ▼

Yes, op-eds, articles and content may be reused with explicit attribution and a link to the source. For any other use (translation, adaptation, commercial use), please contact us beforehand.

Contact

Together, let's accelerate malaria elimination.

Program partnerships, conferences, technical advice or exchanges on health systems in francophone Africa — Dr. Dagnon can be reached via his professional networks.
